

Energy Saver Incentive

Geelong Gas & Electrical Appliances would like to enable every domestic home owner to take advantage of the Energy Saver Incentive currently available from the Victorian Government.

Households that have electric hot water services or electric heating systems are entitled to claim the Energy Saver Incentive when switching to high efficiency gas hot water services or high efficiency gas heating systems.

With electricity prices continuing to rise, everyone is looking for a better way to save money. Switching to natural gas is the solution. You can reduce your electricity bills for hotwater and heating by more than 50% simply by installing a high efficiency gas hot water service or gas hot water system.

Geelong Gas & Electrical Appliances offer the most efficient gas appliances available to suit every consumers lifestyle requirements.

With all paperwork being completed for you by the staff at Geelong Gas & Electrical Appliances we aim to ensure that the process is as easy for you as possible. We simply deduct the value of the incentive from the cost of your appliance installation ensuring that you get the full benefit of the incentive without the hassle of the paperwork.

Just another way Geelong Gas & Electrical Appliances makes your life more comfortable.
